**MAGIC SQUARE**

**Directions:** In the squares in the box below are 16 letters of the alphabet. Below the box, the letters occur again, but this time with a description. On the right is a list of words, phrases or names that go with the descriptions. **Match** the word or phrase with its description by placing the number preceding the word or phrase in the box with the letter found in front of the description. When you complete the puzzle, the numbers in each vertical column and each horizontal row should add up to the same total: the magic number!
